[Fields for the ROD detail tab.xlsx](#)
[Fields for the Site&OU detail tab.xlsx](#)

Shahid:

Earlier today, I CC'd you for my message to Matt (below) about winnowing through the FYRs and RoDs for purposes of reporting on the State of Play.

Deliberative Process/Ex. 5

Subject: extracting data from documents needed for State of Play report

Matt:

You may or may not need to look at the attached REF Values file. I have not yet figured that out.

As for the other three files, they are logical groupings (Excel tabs) that contain my fields of interest for all sites on the SAA or on the NPL (even the deleted ones). The period of interest ranges from 2010 until 2015.

Before expending any effort on this, you'll want to hear a go-ahead from Shahid. Likely, he and I will first be visiting you.
